# Statement of Intent

---

Girls loves makeup products. We love looking at them, buying them, trying them on, but we don't necessarily love using them up. Sometimes we end up buying too many products that are not for us, but they could be right for others.

**Ninety Percent** is created to be that platform where those makeup could happily find their new masters. It helps trading second-hand cosmetic products that ranges from being **lightly used (90% new)** to **brand new** condition. As one of those makeup junkie, my friend and I have quite amount of products in stock that we'd love to sell.
